ANDOVER,

MEMORIAL HALL LIBRARY,

SMALL HOMES OF TODAY AND TOMORROW

On Sunday afternoon, Nov. 17th, the library will observe its annual Open House from 3:30 to 5:30 o'clock. As has been the custom in the past, the library trustees and staff members take this opportunity to welcome as friends all those who feel that the library is an important part of their lives, and extend an invitation to all newcomers to our community to share this part of Book Week with us.

The speaker this year, Mrs. Johnson O'Connor, an architect of Boston, has an attractive theme for her talk — "Small Houses of Today and Tomorrow." Mrs. O'Connor is enthusiastic about small homes, and says this about herself: "I really want to talk about beginning to build a house by choosing a community and then a plot of land. Houses to live in interest me more than houses just to look at and I like to develop the entourage even for tiny houses and to show people how to give distinction to simple Cape Cod Cottages by relating them to the sun and breeze and view and using the outside as well as the inside for living."

Mrs. O'Connor studied architecture at Massachusetts of Technology and in Europe. She is a member of a firm of women, "Howe, Manning and Almy" who specialized in residential work for some years. She has worked on housing for lower wage earners and is one of the architects who designed Old Harbor Village in South Boston.

There will be an open period for questions and answers, and it is hoped that many prospective home owners will come with their problems. There will be displays of housing material, small model houses, and selections of the newer books.

Completed By This Group!

GI provisions and specialized Co-operative Bank service combine to give you a sound home financing plan—with sound, sensible terms. If you'd like to see just how a Veteran Home Loan can be adapted to your needs and income, see us. You'll find it worth your while to consider the advantages of home ownership . . . the economies of GI financing.

RED CROSS NEEDS GREY LADIES

The Veterans Hospital in Bedford has asked Andover and the surrounding communities to recruit volunteers to act as Grey Ladies and members of the Arts and Skills Corps. These two Red Cross activities give women an opportunity to perform a great service for the veterans in the hospital.

The Grey Ladies, after a four-afternoon course in hospital routine and procedures, may choose the type of work they wish to do and the time they wish to give, usually two half days or one full day a week. The duties vary: delivery of library books to the wards, changing the water in flower vases, playing games and entertaining, feeding patients or delivery of birthday presents. Women who can play the piano for group singing are in especial demand.

The Arts and Skills workers take the same course. They may teach oil painting, leather work, weaving, textile painting, which is very popular, or other forms of arts and crafts. Women who are interested in this form of activity but who do not feel that they know enough to teach others may volunteer as apprentices and help in preparation of materials as they themselves learn more about the craft.

The Andover Chapter of the Red Cross will try to arrange transportation to Bedford in the Red Cross car for those who need it.

The next course starts in early December. Any woman who wish to volunteer their services or learn more about the work are asked to call Mrs. Roscoe E. Duke, Andover 1690, or Mrs. James Eaton, Andover 1465-J. Application forms may be procured at the Red Cross rooms on Mondays, Wednesdays or Fridays.

THE ANDO

LET'S TALK TURKEY!

Out in the barnyard where I live (and I'm not going to tell you which one it is just in case you haven't seen your butcher yet) all the birds are in a stew, that is they're in a stew lest they be in one — after they've been a roast and a hash first, of course. Just as soon as there is a little frost on the pumpkin, the gang starts getting that hang-dog, worried expression so peculiar to turkeys in November and they start scratching away at the ground as if they were looking for a way out.

Historically speaking, the whole idea goes back to Governor Bradford and the Pilgrims. That was somewhat before my time but the story was handed down to me from my ancestors and they ought to know because I am a direct descendent of a twenty-pounder that graced the table on that first New England Thanksgiving in 1621. One of my grandsires was peeping from behind a bayberry bush when the Governor, (my grandsire whose name was Tom and was probably the originator of the expression "peeping Tom" called him "Governour" garbling his r's) issued his order that sent "four men on a fowling" trip. No need to guess what fowl they were fowling for.

Tom, who was the Paul Revere of Turkey land, got a head start and spread the news around that the hunters were abroad and a good many of my relatives got away including Tom who passed the story along to his posterity. His cousin, whose name was Tom-tom and had an Indian strain, was not as lucky and his only claim to fame was that he was roasted by Priscilla Alden.

The four men bagged four turkeys.

They were wild turkeys then and as a matter of fact they've been wild ever since — in a cultivated way. Along with the geese, ducks, waterfowl, fish, the five deer that the Indians contributed and the results of the first harvest, the turkeys made the rough-hewn tables groan under their weight and the feasting lasted for three days.

Modern turkeys are really lucky that Thanksgiving has evolved into a one day affair although there was a time when the Democrats had us doubly fowled. If you recall, the holiday was pushed up a week and the first year it happened, we turkeys weren't prepared for it and so were taken unawares. Many of us hadn't even started to worry about it when their we were, sitting on a table, being made succulent with hot gravy. There were some people who continued to observe the regular Thanksgiving and just when we were settling down to enjoy ourselves until Christmas, pop, we were picked off for the traditionists.

Looking back, I think that in some

GOBBLE, GOBBLE!

Consider that the turkey was
A living bird with champing jaws
His beady eye was bright and brown
His feathers were as soft as down
He strutted all around the shed
With all his gay tail plumage spread
And feathered knickers to his knees.
We didn't listen to his pleas
So now he lies in regal splendor
And all we say is "Hope he's tender!"

E. F. C.

respects Tom-tom was proud to be sitting on that first Thanksgiving table. We had a lot of respect for the Pilgrims and we were glad to see them sit down to a square meal after that first winter of near-famine. From the same token, I guess we shouldn't mind sacrificing ourselves this year, either, although that's taking a pretty broad viewpoint. You should be surprised, though, to learn how altruistic a turkey can be.

Some time ago, my master developed a soft spot in his heart for me and spared the axe and spoiled the turkey so to speak because now I'm too old and tough to be given consideration by even the most hungry. His attitude elevated my position in the barnyard and I'm more or less king among my brothers. During this season, however, when all the turkeys are possessed with what has been called fear psychology in the barnyard war of nerves, I have become quite popular. Since my tough neck alone is safe, I am considered a suspicious bird.

This doesn't make my life any happier. I would almost rather be one of the mob but more likely when November 28th rolls around I will give thanks too. When all is said and done, it is better to be a Gobbler than just plain gobbled.

E. L. B.

Our Cover

Claire Berube, standing, and left to right: Mary Colombosian, Elaine Maddon and Dorothy Keith contemplate the distance to the Norwood game last Saturday as they long to cheer on the team to a possible victory — if they could only get the transportation.

The Punchard cheerleaders, organized this year, have as members besides the representatives pictured on our front cover: Sally Kelly, Kay Craig, Mary Cartier, Helen Surette, Helen Black, Ethel Hibbett and Shirley Smith, Captain. Each of the members made her own trim uniform and will be reimbursed for the materials used by the school at a later date.

No school bus transportation is provided for the team behind the team to games played away from the home field although the school attempts to provide means of transportation in private cars.

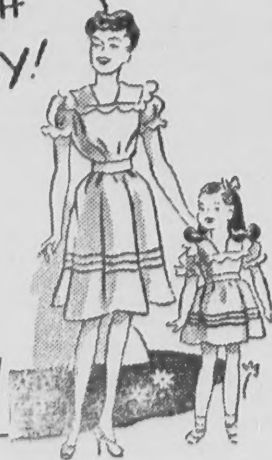

Last Saturday, however, found the cheerleaders a little doubtful about getting to Norwood until a few interested citizens "pushed over" and made room in their cars.

CLUB ACTIVITIES

Postman's Holiday

Seventeen members of the Male Choir and its auxiliary took a Postman's holiday last Saturday night and sang after their supper in the Memorial auditorium in Melrose. It was the annual "Ladies Night" of the New England Federation of New England Federation of Massachusetts Glee Clubs and after enjoying their dinner and entertainment, all the clubs got together and sang.

Central P. T. A. Sponsors Movie

The Central P. T. A. is sponsoring the movie program to be shown at the Andover Playhouse, November 26 and 27.

The picture, "Boys' Ranch," is highly recommended by the P.T.A. for both parents and children. "This is America, Adventures in Music" with Jose Iturbi and a cartoon will also be shown. Making a very fine program.

The P. T. A. tickets for the movie will be sold by the pupils of Stowe and Junior High schools, during the week of November 18. Be sure to buy your ticket from a pupil as the P. T. A. will receive a commission from each ticket sold in this manner.

Tickets will be also sold in the Library on November 26 and 27.

Endowment Drive

President Bancroft Beatley has announced the plan for a \$3,500,000 endowment drive for Simmons college to be started soon to preserve it as one of the private colleges essential to the welfare of the nation. During the war and since, many colleges have undertaken the teaching of technical work along with liberal arts education and are not averse to students planning programs that will produce marketable competence in job seeking.

The president stated that "although other colleges have developed many of the programs in which Simmons was a pioneer, Simmons stands in the position of having the 'know how' of technical education for women. However, to hold its status and increase its contribution to the education of women, Simmons must be able to raise its salary scale to compete with other colleges for able teachers. New teaching facilities and equipment must be added to the college, as well as sufficient new housing for those students outside the Boston area who cannot now be accommodated."

Male Choir Auxiliary

The Ladies Auxiliary to the Andover Male Choir met recently at the home of Mrs. Raymond Wilkinson, 7 Locke street. At the business meeting in charge of the president, Mrs. Carl A. Wetterberg, plans were made for future events. Book reviews, lectures and social evenings were suggested.

After the business meeting an auction sale was held. Sugar, mayonnaise, soap, Jello, puddings and soap powder were among the scarce articles sold.

The fifth annual ladies night of the New England Federation of Men's Glee Clubs was held on Saturday evening in the Memorial Hall at Melrose. Among those attending from Andover were Mr. and Mrs. Harold Bancroft, Mr. and Mrs. James P. Christie, Mr. and Mrs. J. Everett Collins, John Collins, Miss Drummond, David Forbes, George B. Petrie, Isabella Petrie, Georgina Petrie, Mr. and Mrs. Carl A. Wetterberg, and Mr. and Mrs. Raymond Wilkinson.

November Club Notes

The Art Department will meet Monday at 3 p. m. at the home of Mrs. Willard Barrett at the corner of Ballardvale road and Sunset Rock road.

The Literature Department will meet Wednesday at 3 p. m. at the home of Mrs. Thaxter Eaton, 49 Abbot street.

Men's Brotherhood

Dr. Eddie Asirvathan, professor at Madras Christian College in India who is at present an exchange professor at Boston University, will speak to the Men's Brotherhood of the West church on Monday night at their meeting which begins at 8:00 p. m. His subject will be "The Present Day Situation in India."

ANDOVER GRANGE

Andover Grange will meet Thursday evening, November 26 in the Grange Hall. The program will be in charge of Past Masters and the speaker of the evening will be Supt. of Schools Kenneth Sherman who will talk of his experiences in the South Pacific.

Indian Ridge Rebekah Lodge

A meeting was held Monday evening in Odd Fellows hall at 7:45. Following the business session, James H. Burroughs gave a paper demonstration.

British Empire War Veterans

A grocery beano party was enjoyed following the business meeting held Wednesday evening in the Square and Compass club hall. Refreshments were served by Mrs. Alexander Auchterlonie, Mrs. Linda Begg, and Mrs. William Cargill.

League of Women Voters

Raymond Bennett, director of the World Peace Foundation, will be the speaker at the December 1 meeting of the Andover League of Woman Voters. A catered luncheon will be served at 12:45 in the Christ church parish house, and tickets may be obtained from Mrs. James Grew before November 29.

Thanksgiving is just around the corner and besides a delicious dinner and the Punchard-Johnson game, there will be a service at the Baptist church at 9:00 a. m. for all denominations for the real purpose of the holiday, Giving Thanks, and we have a lot to be thankful for this year.

Carnival Time

Take your lucky rabbit's foot to the V. F. W. carnival when you go as there will be all kinds of games of chance with prizes you will want to take home with you. The carnival opened Thursday evening in the V. F. W. Headquarters in the Musgrove Building and it will continue through Saturday night. If your number comes up on the wheel, you will have your bird for thanksgiving as turkeys and chickens will be the prizes at that booth. The auxiliary is in charge of the candy and refreshment booths and another feature is a game of darts similar to the one held at the Fireman's carnival. Special prize drawings will also be held each night of the event.

Do They Wear Shoes?

Overheard in a Phillippian staff conference before the tea dance:
First P. A. — "You should see the delicious number I'm dragging."
Second P. A., in North Carolinian accents — "What are you talking about? This is too far north for beautiful women."
Curtains for us pore ole Yankees.

The Palestine Problem

Dr. Roger B. Bosworth, a member of the American Christian Palestine Committee, will speak on "The Palestine Problem" at Abbot Hall, November 23. The lecture, which is open to the public, will begin at 8 p. m.

A director of National Youth activities, Dr. Bosworth has written several books on international affairs and his talk should appeal to townspeople who are interesting themselves in the vital problems in world affairs.

U. N. and Luncheon, Too

All League of Women Voters and their friends should circle December 3 as a day to attend the league luncheon meeting at the Christ church parish house when Raymond Bennett will speak on the United Nations. Mr. Bennett has been attending all the General Assembly meetings, and was formerly secretary of the American Council of the Institute of Pacific Relations. The meeting will begin at 12:45, and luncheon tickets at 85 cents may be obtained before November 29 from Mrs. James Grew, 167 Main street. Mr. Bennett is a former P. A. graduate, class of 1933.

"It's Always Fair Weather"

The Punchard Alumni Christmas formal on December 29 at Crystal ballroom is an attempt to get some of the "old grads" together for a good time as well as to start a fund for a memorial for Punchard's World War II dead. It is hoped that the alumni who have been buying tickets to alumni functions to support the association will use their tickets this time and help to re-awaken the old alumni spirit that has been dying down since the inactive period during the war. Don't miss it Frankie Kahn and his boys will play some of the old favorites that call for glides without the jitters.

Christmas Bazaar

December 7 is the date of the annual Christmas Bazaar sponsored by the Woman's Union of the West church. There will be two servings of the baked bean supper, one at 5:30 and one at 6:30, but no fair sitting down twice. Mrs. Alfred Kneath is chairman of the supper committee and Mrs. Arthur Peatman is in charge of the ticket sales.

Harvard Forum Taking the Air

In an effort to better serve public interest in discussions now drawing overflow audiences to Harvard lecture halls and theaters on Forum Friday nights, the faculty advisors of the Harvard Law School Forum have arranged for a series of eight of the Forum's forthcoming feature programs to be broadcast over Station WHDH, which started at 9:35 November 15.

The forum programs are part of a project to promote "intelligent examination of the vital question of the day," centering around such vital subjects as relations between U. S. and Russia; labor and management question in America; ethical values and standards for modern man, and analyses of international organization proposals.

A schedule of the broadcasts to be heard over WHDH follows:

Friday, December 6, 9 p. m. — "What Is the Solution in China?", Chen Chih-Mai, John K. Fairbank and audience.

Friday, January 10, 9 p. m. — "Values for Modern Man," Philip Wylie, F. C. S. Northrop and audience.

Friday, February 23, 9 p. m. — "The Causes of Industrial Strikes," Clinton S. Golden, Leo Wollman and audience.

Friday, March 14, p. m. — "How Can We Mitigate Industrial Strikes?", Donald Richberg, Hon. Wayne Morse and audience.

Friday, March 28, 9 p. m. — "A Restatement of the Liberal Creed," Thurman Arnold, George Soule and audience.

Friday, April 11, 9 p. m. — "An Analysis of the United Nations," Abraham H. Feller, John G. Winant, Edward Stettinius and audience.

Friday, April 25, 9 p. m. — "An Analysis of World Government," Owen J. Roberts, Clark M. Eichelberger, Robert M. Hutchins and audience.

Scaling the Peaks

Bradford Washburn, noted mountain climber and Alaskan explorer, will present a lecture illustrated by colored movies of the record ascent of Mt. Hayes, 13,700-foot peak in South America, at George Washington Hall on November 29. Doors will open at 7:30 and the public is invited to attend.

St. Andrew's Night

Merrimack Valley Order of Scottish Clans will hold their second annual St. Andrew's night celebration in Memorial auditorium on December 7. The evening will get off to a good start with supper being served from 5:30 to 6:30 in the gymnasium. The concert that will follow in the auditorium will feature the Lawrence Pipe band; Harry Hunter, comedian; Miss Edith Leslie, dancer; Miss Pearl Haines and Bruce Wilson, singers; Miss Ruby Longbottom, elocutionist; and Miss Minnie Valentine, pianist.

SILVER TEA AT PARISH FESTIVAL

Mrs. Victor Mill, Jr., seated with Mrs. James Faggiano on her right, poured at the Silver Tea at St. Augustine's school Thursday afternoon, the opening day of the Parish Festival last week. Mrs. Jerome W. Cross is in the center foreground chatting with Mrs. Joseph P. McInaney. Standing, left to right, in the back are Mrs. John P. S. Doherty, Mrs. Walter McDonald and Mrs. John J. McArdle. All were members of the committee headed by Mrs. Herbert Auty, general chairman, and Mrs. Jerome W. Cross and Mrs. John F. Mulcahy, co-chairmen.

LIQUOR LICENSE FEES UPPED

The liquor license fees for the coming year have been boosted by the selectmen.

The fee for the sale of all alcoholic beverages for hotels, restaurants and package stores has been raised from \$250 to \$500, while the fee on the selling of wine and malt beverages has jumped from \$100 to \$150.

YES, WE HAVE BANANAS

Three banana bulbs privately imported into Iceland in 1939 were grown in an electrically heated hot-house and have produced fruit. Now the Iceland government is experimenting with growing bananas in hot-water-heated hothouses.

Farewell To Mike

The old Iron Mike is going to leave Andover. A new one is coming, with an end of the year promise, and the Board of Public Works has an opportunity to sell the old one at a very good price. The selectmen met with the board Monday night, and discussed this matter along with one or two others. Both boards agreed to bid adieu to the old piece of equipment which created much controversy when a previous board purchased it on the installment plan without town meeting permission.

NATIONAL THANKSGIVING PROCLAMATION

FIRST ISSUED BY PRESIDENT LINCOLN

October 3, 1863

(Copied in part)

The year that is drawing toward its close has been filled with the blessings of fruitful fields and healthful skies. To these bounties, which are so constantly enjoyed that we are prone to forget the source from which they come, others have been added, which are of so extraordinary a nature that they cannot fail to penetrate and soften the heart which is habitually insensible to the ever watchful providence of Almighty God. In the midst of a Civil war of unequal magnitude and severity, which has sometimes seemed to foreign states to invite and provoke their aggression, peace has been preserved with all nations, order has been maintained, the laws have been respected and obeyed, and harmony has prevailed everywhere except in the theatre of military conflict; while that theatre has been greatly contracted by the advancing armies and navies of the Union.

Needful diversion of wealth and strength from the fields of peaceful industry to the national defense have not arrested the plow, the shuttle or the ship; the ax has enlarged the borders of our settlements, and the mines, as well of iron and coal as of precious metals, have yielded even more abundantly than heretofore. Population has steadily increased notwithstanding the waste that has been made in the camp, the siege and the battlefield, and the country, rejoicing in the consciousness of augmented strength and vigor, is permitted to expect continuance of years with large increase of freedom.

No human counsel hath devised, nor hath any mortal hand worked out these great things. They are the gracious gifts of the most high God, who, while dealing with us in anger for our sins, hath nevertheless remembered mercy.

How About A Lift?

Isn't there a little something wrong with Punchard spirit?

Somewhat it seems as if there should be a larger following of students at the football games played away, and certainly the all-girl band and the cheerleaders should accompany the team. Other teams come here with a commendably large group of cohorts, but when Punchard's team goes away, the support is pitiable. We have a band that's worth showing off in other towns; why don't we do it?

One gets the impression that there's a lack of cohesiveness at Punchard, a lethargy that should not exist in a high school. A real up-and-coming student body would see to it that events were held to raise money to send the band on these trips. The girls themselves make their own uniforms; certainly the rest of the student body could help out by showing a little money-raising activity.

Come on, kids. You've got a good school in a grand town. Let's see some real school spirit.

Inflation Bubbles

Soap was back on the market again this week. It's been scarce, you know, and we were all asked to save our waste fats so that the soap-makers could make soap. But now you can get it, at a price — and what a price!!!

Housewives, stunned by the price of meats when controls were lifted, did a pretty good job of bringing the prices down by refusing to buy at the outrageous prices that retailers were forced to offer. Meat prices did come down, some — not as much as they should yet, but the trend is hopeful.

The future of the country's economy is at stake, for inflation has always been followed by depression. Housewives can continue to combat inflation by continuing to refuse to pay inflated prices, by buying only goods that are plentiful, and by using substitutes where possible. We've done without things we've wanted for quite a while; we can do without them for a while longer rather than submit to an artificially inflated price structure.

SHORTAGES EVERYWHERE

Friend of ours in Rhode Island went into a small grocery store and asked for a loaf of bread. The grocer shook his head gloomily.

"How about some sugar, then?"

"No sugar."

"Bacon?"

"No bacon."

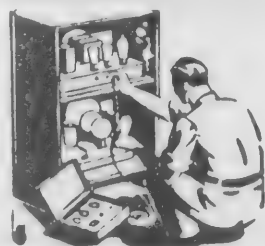

"Well, why don't you lock up and go fishin'?"

The proprietor looked up with infinite pathos and replied, "Can't buy a lock."

STICKTOITIVENESS

Glue manufacturers now report that glue can be made resistant to mold and bacteria by adding 5 percent of an organic mercury fungicide-bactericide to the dry glue. This treatment plus treating one side of the wood joint before bonding together assures complete resistance and improves the shock resistance of the furniture joints.

This Sober Town

One local man is sure that the manners of the local teen-agers must be the subject of a special course in school, for they're definitely improving. As he and his wife were leaving the local theater the other night, the sixteen-year-old boy who knocked his wife into the seat on the left and him into the seat on the right did not neglect to say "Excuse me" as he tore through.

Typographical error in one of our contemporaries this week: "He stepped on a wire carrying 110 colts." Lot of potential horse-power there.

There's a fellow up the Hill way who feels partly pleased with the co-operation of the Lawrence police force. Hauled into court over there because he had failed to get his inspection sticker in time, he found that in cash he only had half the three dollar fine, and it's against the rules to accept checks. However, a friendly police officer came along and gave him the three dollars for the check, and the fine — which really was a very nice spirit of co-operation. Only trouble was that it was the same officer that hauled him in.

PASSING OUT THE BUCK

Home economists report that the average weekly wage in 14 leading Massachusetts cities was about \$41 as of November 1. Figures show that the average moderate-income in the state allotted its dollar in October as follows: food, 45%; clothing, 11%; shelter, 16.7%; fuel and light, 8.15%; and miscellaneous, 18.8%. Judgment and care in buying all items thus is necessary, if the housewife is to make ends meet, say the extension specialists.

AT PUNCHARD

By Jack Sherman

Goldsmith Contest

Each year the Goldsmith Prize Speaking contest is held at Punchard. Mr. Goldsmith felt that everyone should be able to get on his feet and express clearly what he had to say. Upon his death he left a fund to be used for prizes in a speaking contest. The participants are chosen by tryouts, which means that everyone has the opportunity of at least trying to enter the contest, and of those who try out, a boy and a girl are chosen from each class. Those who have won in years past are not eligible, but contestants who did not win try again. This year the following people tried out:

Seniors: M. Paine, C. Davis, A. Sullivan, G. Murray, R. Clough, A. Clinton, R. Wormwood, W. Valentine; **Juniors:** P. Black, J. Gallagher, J. Steinert, J. Sherman, P. Churchill, J. Gillis, W. Fairburn; **Sophomores:** S. Cavallaro, R. Doyle, W. White, D. Anderson, M. Muise, R. Beauchesne, R. Chadwick, R. O'Connor, J. Buzzee, A. Wadleigh, D. Christie, M. Van Coppenolle.

The following students were picked to recite a selection at assembly December 3: Seniors — Genevieve Murray, William Valentine; Juniors — Joan Gallagher, John Gillis; Sophomores — Ruth Ann Chadwick, Russell Doyle.

Basketball

Every Monday night, Mr. Donald Dunn, Mr. Milton Blanchard, and Mr. Kenneth McKiniry will be in the gymnasium to run an inter-church basketball league. Any boy who has affiliated himself with a church and is a regular attender every Sunday is eligible to be on the team for that church. There will be three teams, the Juniors, composed of boys under 12 years of age; the Intermediates, boys from 12 to 17; and the Seniors, fellows from 17 to 75.

Poetry Class

A class in poetry for the teachers is being sponsored by the Andover Teachers' Association. It is an extension course from Boston University and from Harvard. Miss E. Marjorie Smith, Miss Lilian Fox, Miss Agnes Dugan, and Mr. James Hart are the Punchard teachers in attendance.

Athletic Association Dues

Mr. Howard Hennigar, who is in charge of the Athletic Association, has released the following figures on the payment of dues into the organization:

Room	Treasurer	%
1	Polly Black	29.8
2	Carl Gahan	21.9
3	Kenneth McCormish	26.7
4	Bertha Perry	16
6	Janet Caverly	33.2
7	Peggy Wallace	38.5
9	Joan Pomeroy	54.3
*10	Arnold Schofield	7.7
12	Clifford Dubois	28.4
14	Jane Lynch	47.4

*Room 10 is the veterans' home room, and as the veterans are not obliged to join, and many of them have no reason to do so, their average is, of course, lower.

AT PHILLIPS ACADEMY

Andover Men on P. A. Council

Phillips Academy's Alumni Council, under the presidency of Chauncey B. Garver, '04, of New York City, has announced a list of its officers for the coming year. Vice presidents are Stephen Y. Hord, '17, of Chicago; J. Kennedy Beeson, '25, of Pittsburgh, and Philip K. Allen, '29, of Andover; executive secretary is M. Lawrence Shields of Andover, Alumni secretary and for 23 years an instructor at Phillips academy; treasurer, James Gould, '13, treasurer of Phillips academy.

The purpose of the Council is threefold, according to President Garver. First, it was formed to strengthen the ties between Andover and her nearly 12,000 alumni throughout the world; second, it plans to aid the school in seeking out worthy boys from all parts of the country who will be benefitted by Andover training, and, third, the Council will stand ready to advise the school administration by means of constructive criticism and suggestions.

While members of the Council come from points as far afield from Andover as California, Texas and Chicago, the majority of members are drawn from the eastern seaboard. Many of these men are prominent in their professions and several are nationally known figures.

Among council members from the Boston area are: Rodney W. Brown, '06, H. Carl Sandberg, '26, and State Senator Philip K. Allen, '29, from Andover; G. Storer Baldwin, '17, and John C. Kiley, Jr., '37, of Chestnut Hill; Horace W. Cole, '22 of Newton; Nicholas W. Danforth, '24, of Cambridge; B. Allen Rowland, '28, of Methuen, and John M. Woolsey, '34, of Boston.

Junior Class Rings

Friday, November 22, is the last day that salesmen may submit rings for the Junior Class Ring Committee to consider. The Committee will make its decision some time next week and then lay the matter before the class members so that they may make their decision and order their rings.

Norwood Game

Punchard lost the Norwood game, 21-0. Although the score was bad, it was a closer game than the score indicates. Norwood made three touchdowns. The first was a lucky 40-yard pass completed; the second, a quick opening cut-back play shortly after the second half opened; and the third was an intercepted Punchard pass when Punchard was on the Norwood five-yard line with a first down. The boys did a fine job, and the Norwood boys said that we had the strongest line that they had run up against this season. We'll do better at the Thanksgiving game with Johnson.

Thanksgiving Game

The game with Johnson is a home game this year and it is being held as always at the Andover Playstead. The game starts at 10:30 a. m., so be sure to get there early for a good seat. It should be a very close game, with both teams about evenly matched.

JACK SHERMAN

Charity Drive

Phillips Academy's 1946 Charities Drive sponsored by the Andover Society of Inquiry, went over the top last week with a total figure of \$4,239.50, contributed by a student body of 755 boys. This figure exceeds by \$539.50 the set goal of \$3,700, and the contributions, with 100% student participation, average around \$5.60 per student.

The money collected in the Charities Drive is divided among a great many agencies, such as the Red Cross, Salvation Army, Grenfell Association and the World Student Service Fund.

Illustrated Lecture By Bradford Washburn

Bradford Washburn, noted mountaineer and Alaskan explorer, will give a lecture illustrated by colored moving pictures, Friday night, November 29, at 8:15 o'clock at Goerge Washington Hall, Phillips Academy. This film tells the story of the ascent of one of North America's last great virgin peaks — 13,700-foot Mt. Hayes — a record ascent accomplished in lightning fashion by Mr. and Mrs. Washburn and four companions with the aid of radio, airplane and parachuted supplies.

Mr. Washburn is director of the New England Museum of Natural History in Boston. He began explorations in the Alaskan mountains in 1930, and worked closely with the Army Air Forces and with the Quartermaster Corps on research on flight problems and cold weather clothing, operations and rescue techniques during World War II.

Mr. Washburn's work with the National Geographic society has brought him world-wide recognition as an expert in Alaskan exploration.

The doors of the hall will open at 7:30 o'clock and the public is invited free of charge.

THE ANDOVER T

Traffic Squad

The traffic Squad has become a very effective force of our Student Government Association. The number of cases they have dealt with have been handled very efficiently and penalties have been just. Co-operation with this group would eventually eliminate it just as co-operation with the police force in the town would eventually eliminate it. These young people are learning that this watchful group of persons wishes to co-operate with us, just as we wish to co-operate with them. Co-operation always makes good, strong, healthful conditions whether it is in the home, the church, the school, or the town.

Handy-Craft

It's fun to go to school in Rooms 1 and 2, for besides learning to read and write and do some arithmetic, the folks in there make all sorts of useful and ornamental articles to be used in the home. If you should go in either one of those rooms you would see brightly colored toys, dolls to wear on your coat, piglets, etc., all made by the people who are in those rooms. The rooms also have most colorful decorations, and all made by these folks. They've even made and painted some of the extra furniture. Any bits of unused cloth of varying hues and textures would be most welcome for the making of some of the above-mentioned articles. Mrs. Walsh has just told me the children take all care of and responsibility for the plants in the windows and window boxes, which, by the way, were made by the children. It would do any plant-lover's heart good to see them. Mrs. Walsh and Miss Donahue, who guide these folks along so carefully, surely deserve all the credit that is due them.

Filled Biscuits

There must have been many happy suppers in town last week, and this week, also, if all the comments we heard were true. The girls in the Seventh Grade Cooking Classes have been making plain baking powder biscuits and better still, filled biscuits. Yes, filled biscuits, and filled with such delectable things as raisins, and nuts, and butter, and scotch, and sugar and cinnamon. They were so good that we overheard many girls saying, "I'm going to make some of those for supper tonight." So that's why we say, there must have been some very happy suppers in town this week. Miss Dantos saved some of the delicious biscuits for the teachers and they decided that even anyone with the most finicky appetite would have to admit that they were good!

Hockey Rink

Mr. Dunn's classes have been working on the construction of a hockey rink situated at the right end of the larger bleacher. It is hoped that the rink will be more successful than those of the past few years have been. Hockey games will be played here, and when games are not in session, anyone who wishes to skate may do so.

Over the Top

The Junior Red Cross collected \$34.54 in the drive for membership during the past two weeks. This is far more than the amount allotted to each room for 100% membership, one penny per person.

AT JUNIOR HIGH . . .

RAYMOND COLLINS and CHARLES CALDWELL

Busy Season

Between now and Christmas the auditorium will be so busy that a special schedule has been made out by the Superintendent to avoid confusion before that date. It is being used for rehearsals for several different events in the Central schools.

Pictures

Football and cheerleader pictures have arrived in the office and are now ready for all those who have ordered them. They were taken and finished by Donald Look and are pictures worth having in one's collection of school pictures.

Old Resident

The Junior High School was grieved to learn of the death of Mrs. Charles Newman, the grandmother of George Peters. George is in the ninth grade. Mrs. Newman was an old Andover resident.

Why the Chimes Rang

On the afternoon of Sunday, December 15, the Central Schools in conjunction with the P. T. A. will present a Christmas program in the Memorial Auditorium. The Junior High School began rehearsals on Monday afternoon on the one-act play, "Why the Chimes Rang," and will use this as their part of the program.

Historic Trip

While studying the history and geography of Andover, students in the Seventh Grade geography classes are visiting points of interest in the town this week. Most boys and girls find the Historical Society to be one of the most interesting. The boys, particularly, like to spend most of their time in the Barn where the old fire engine is stored. There are many other old things there, also, which all would find a great interest in if they were to visit the Historical Society. It is always gratifying to learn that sometimes "Mother or Dad" decide to accompany the young folks on these trips. All who go there come away feeling that it is one of the most interesting and profitable afternoons they have spent.

Student Committee

On the afternoon of Monday, November 18, Mr. William McDonald of the Junior High School faculty and Joseph Ratyna, president of the Student Government Association, attended the second meeting of the Student Committee on State Affairs in Boston. This is a growing thing and it was noted that since the last meeting twenty-five new schools had joined the committee. The chairman, Miss Miriam Butler, explained that the Massachusetts Civic League was comprised of ten committees and one group of veterans. The committee voted to try to get Governor-Ellet Bradford to speak before the next meeting of the League. They also voted to hold the meetings on Thursday at 3:30. The meeting was adjourned after some further business, and those present were given lists of sample questions which they might ask legislators in the state.

Boys' Ranch

Home room mothers attended home room meetings in the various rooms on Monday at which time they gave out tickets for a special movie to be presented on November 26 and 27, at the Andover Playhouse. Pictures to be seen will be "Boys' Ranch," with Jackie "Butch" Jenkins, Jose Iturbi in "Adventures in Music," and a cartoon.

Students selling ten tickets will receive a free ticket, and the P.T.A. will receive one-third of the receipts. Tickets are selling at twenty cents each for those under twelve, and fifty cents each for anyone over twelve.

Bill is Recovering

The Junior High School is very happy to know that its janitor, Bill Snyder, is recovering from an automobile accident in which he was injured, and which occurred in Andover Square. He will be back with us before very long.

Assembly Program For Education Week

The assembly program presented on Friday, November 15, featured American Education Week, and was prepared by Room 13, a seventh grade home room, with Miss Katherine Sweeney in charge. After the salute to the flag the announcer, Barbara Folley, stressed the fact that although the second week in November is Education Week and Book Week, both education and the reading of worthwhile books should be carried on throughout the year. Then Dorothy Hastings read a list of the birthdays of those literary men and women whose birthdays come during the month of November. The program was in the form of an "Information, Please" hour, and the questions referred to books, stories or writers. Just prior to starting the program, Nancy Penwell read a short paper about the history of libraries.

Seated in the experts' row were Martha Ann Fieldhouse and David Pingree, representing the ninth grade, Polly Paradise and Douglas Adkins, representing the eighth grade, and Judith Maddock and Elizabeth Barrett, representing the seventh grade.

The questions were divided into categories, and each category was presented to the experts by a different person. There were two accordion solos by Arthur Rehe. Following is the program:

Who and Where	Jack Wright
Hidden Titles	Betty Born
Who Am I?	Regina Levin
Classification of Books	
	Joan Pearson
Identification of Famous Persons	Priscilla Tompkins
Nursery Rhymes and Fables	Richard Bramley
Score: 7th grade, 22 points; 8th grade, 25 points; 9th grade, 18 points.	

Who Got It?

At the regular weekly meeting of the library staff on Thursday there was \$5.32 in the library treasury. Following the meeting the game, "Take It or Leave It" was played.

Shop Members Visit Gas and Electric Co.

During the visits of the Shop members of the eighth grade to the Power Plant of the Lawrence Gas and Electric Company in Lawrence last week the boys saw many points of interest. They saw the main room in the plant which houses the one water powered generator and the two steam driven generators, the water wheels and water mains from the canal, the battery room and the electric switches which control the generators, the power conductors, the boiler room, the transformers, and the coal storage bins and the electric crane for feeding the coal to the boilers. The trip was most instructive and enjoyable. Because of the risk involved, it was decided to have at least one adult accompany every three boys, therefore, a number of the teachers offered to take the boys over in their cars and accompany them about the plant. There were Mr. Dimlich, Miss Sweeney, Mr. William Snyder, our janitor who heart and soul are ever with the Junior High School, and Mr. Hinckley, who was in charge of the groups. The purpose of the trip, which was made possible by special arrangement with Mr. Charles J. McCabe, was to show the students one phase of work in which they might become interested later in life. In fact, it was a very good guidance program.

Tour of Shops

On several occasions Mr. Owen Hinckley, Junior High School Shop teacher, visited the Industrial Arts Departments in various Junior High schools in other parts of the state, in an effort to contrast and compare our Shop with those of other towns and cities, and to bring home and institute those ideas which could easily be incorporated into our Industrial Art Department.

Mr. Hinckley visited the Weeks Junior High School in Newton, one of the recognized leaders in this area. Their shops consisted of four units: woodworking, printing and graphic arts, general metal work, and mechanical drawing. It was a well-equipped shop, having both hand tools and machines. Much stress is put on book work allied with actual shop practice. This is possible because more periods are allotted to the vocational courses than in Andover.

In Needham, there is a general shop in which one teacher instructs in woodwork and plastics. This is a well-equipped shop of some years' standing.

Reading has four units shops (a unit shop teaches one subject for each unit), which are woodworking, mechanical drawing, metal work, and printing and graphic arts. Here a boy studies for thirteen weeks in one shop and then moves on to the next, taking three shops in the course of one year. This is perhaps the best equipped shop north of Boston.

Punchard - Johnson Appetite Whetted For Thanksgiving Game

If Punchard plays up to her usual form on Thanksgiving morning, she should have no trouble in defeating her old, old schoolboy rival, Johnson. Although the local team's record is not particularly brilliant, in comparison with that of the neighboring town it is infinitely reassuring.

Both teams were ignobly defeated by the strong Concord eleven, but this is the only similarity between the two teams, except that both defeated Chelmsford. Methuen defeated Johnson, 12 to 0, while Punchard was able to tie the score at 6-6. Punchard held Danvers to a 0-0 stalemate, while Johnson was defeated by that team, 20 to 0. Again in the game with Ipswich, the Blue and Gold easily defeated this team,

while Johnson trailed with a zero score.

However, looking at it from another angle, Johnson does have three wins, while Punchard only has two wins and two ties, although Johnson may have picked up those three wins from inferior teams.

Defeated last Saturday, Punchard is pinning its hopes on the Thanksgiving game, while on the other hand, Johnson feels that a defeat of Punchard would make their whole record look a little brighter. So both teams will be in there fighting, and though the local eleven is the favorite, it should be a game well worth working up an appetite at.

Norwood Mows Down Punchard With A Decisive 20-0 Score

Norwood proved to be too much for Punchard last Saturday afternoon, when a 59-yard run straight through the middle of the Punchard line and two good aerials gave the out-of-town team an easy lead of three touchdowns to defeat Punchard, 20 to 0, on the Norwood field.

During the opening period it was anybody's game, with both teams making gains, but to no avail. It was in the second period that McTernan intercepted Glen Noble's pass on the Norwood 44, and the ball went down into pay dirt in a series of aerials and passes, with McTernan carrying the pigskin over. The kick was good and Norwood led, 7-0.

The third period saw McTernan again racing for a touchdown, and hardly a hand touched him as he sped 59 yards down the field for a touchdown. Campisano place-kicked for the point, which was good. More aerial work on Norwood's part brought in another six points, but the attempted conversion failed. Although Punchard put up a hard fight during the last period, making several gains, they were unable to tally. Captain Joe Watson was forced out of the game with an injury. The summary:

Norwood — Rudvilovitch, Connelly, le; Agostino, Kaval, lt; J. Wall, Michlenzie, lg; Delsignore, Karshis, c; Grasso, Yelapi, rg; Seastrand, Gay, rt; Maroney, Young, re; Monbouquette, Ristrom, qb; Campisano, Mattson, lhb; McTernan, Trusevitch, rhb; Sykes, F. Wall, fb.

Nuptial Notes

AUDESSE—GARLAND

Miss Evelyn Garland, daughter of Mrs. Raymond Garland, 25 Bromfield street, Lawrence, was united in marriage with Henry Audesse, 46 Beacon street in St. Mary's church, Lawrence. Rev. Edward J. Carney, O. S. A. officiated.

The bride, who was escorted by her brother, Francis, wore a period gown of white satin and net with finger tip veil of illusion falling from a jeweled coronet. She carried a prayerbook with an orchid marker. The bridesmaids, Lillian Bedard, Gertrude Gebro, Marie Coakley and Virginia Garland wore identical gowns of aqua faille tulle with net skirts and matching tiaras. They carried pink roses. Maid of honor was Miss Marjorie Adams, who wore a gown of blush pink satin and net with a matching head-dress. She carried American beauty roses. The best man was Joseph Mathes.

Following the ceremony a reception was held. The couple will make their home in Dracut upon their return from a wedding trip.

Engagement

The engagement of Marjorie Fessenden, daughter of the late William Fessenden and Mrs. William Fessenden, 72 Park street to Mr. George Porter Wilson of Pine street, Tewksbury, has been announced by the bride-elect's mother.

Miss Fessenden is a graduate of Punchard High school, and is now employed at the Merrimack Mutual Fire Insurance Company. Mr. Wilson graduated from Tewksbury High school and spent three years in the Navy, serving in the European theatre.

IN CHOIR

One of the new appointees to the Freshman Choir at Mt. Holyoke College, Miss Letitia Noss, daughter of Mr. and Mrs. Frederick Boyer, resided in the Choir's first public performance, at vespers service last Sunday evening at Mt. Holyoke College. The group sang "Evening Song," by Reichardt.

... Wed 50 Years Ago ...

(LOOK PHOTO)

Mr. and Mrs. Joseph M. Collins, wed 50 years ago in Maine, observed their golden wedding anniversary at their home on November 5. The couple came to Andover a few months after the ceremony and have resided at 66 Pine street for the past 37 years. They have one daughter, Mrs. Helen Duly, and a granddaughter, Mrs. Robert Cahall. Many friends and neighbors helped to celebrate the golden day.

On Honor Roll

Walter Demers, 9 Union street, a student in the senior class at Kimball Union Academy, Meriden, N. H., is on the honor roll for the fourth marking period.

BIRTHS

A daughter, Deborah Huntington, was born September 8, 1946, to Mr. and Mrs. Lyndon Crawford of Baltimore, Maryland. Mr. Crawford is the son of the late Douglas Gordon Crawford of Andover and Mrs. Crawford of Princeton, New Jersey. Mrs. Douglas Crawford is the daughter of the late Horace H. Tyer of Andover.

A daughter Wednesday at the Lawrence General hospital to Mr. and Mrs. Chester Yeaton, 170 Elm street.

WHERE THERE'S SOOT THERE'S DANGER

November is a good month for cleaning chimneys. Specially where wood is burned, chimneys should be cleaned at least once a year. If wood is a steady fuel, two or three times is better. Cleaning is a simple job. Just tie a cedar bush on the end of a rope, or a couple of bricks with a coat around them, so as to make the surface soft, and tie to a rope or chain. Drop this down the chimney and work it back and forth until the soot is dislodged. Then be sure to clean the soot out of the bottom. Fire departments use several hanging chains with good effect. However you do it, don't put off the cleaning job.

When a quantity of soot has accumulated on the walls of a chimney, it is likely to begin to glow some time when a fire is started with light kindling in the stove or fireplace, while a good breeze is blowing. Such a fire may generate as much heat as coal, and if there is any weak place in the chimney or a hole in the side, the building may catch fire, perhaps several hours after everybody has gone to bed. It's wise not only to clean the chimney now, but to keep all paper and combustible material in the attic and upper rooms away from it. If cracks or soft bricks show, have a competent man repair the weak spots promptly.

Any Day can be Thanksgiving

No doubt about it. Any day can be Thanksgiving for the man who has enough of the right kind of insurance. You groan over paying premiums year in and year out, and then something happens. Your house burns down or you are unfortunate enough to badly hurt a youngster with your car. Without insurance protection you are faced with a serious loss or claim. What you have paid out in premiums fades into insignificance beside the amount which the insurance company pays. That is why we say that any day can be Thanksgiving for our policyholders.

Our advice costs you nothing and places you under no obligation.

THE ANDOVER TOWNSMAN, November 21, 1946

Each year it is a pleasure for the people behind the desk to note the type of books from the display. New books have an appeal that is advertising in writing. It is a privilege to challenge. As has been the case in previous years, this year's spread on the shelves is a room, and visitors are given the privilege of looking leisurely and making their selections. The near-by date is released. One of the favorites is "The Book of the Year" by almost all reserve. There seems to be a little interest in the local attractions. Choose it because it is a fine one that it is a fine one.

WE LIVE

In her talk on "We Live in Houses," she said that the most important feature of a house is the location. She advised that the location of a house is the most important feature of a house. She advised that the location of a house is the most important feature of a house.

"We live in houses," she said. "The most important feature of a house is the location. She advised that the location of a house is the most important feature of a house."

"Climate is important," she said. "After a month in the country, she wondered why she was a home in Boston. She advised that the location of a house is the most important feature of a house."

1, 1946

Each year it is a source of pleasure for the people who work behind the desk in the library to note the type of books reserved from the displays during Book Week. New books in bright jackets have an appeal that all the fine advertising in write-ups can never hope to challenge.

As has been the custom in previous years, this year's selections were spread on the tables around the room, and visitors were given the privilege of looking them over leisurely and making selection for the near-by date when the books are released.

One of the favorites is Mrs. Barber's book "The Wall Between." Almost all reservers put this on the list. There seems to be more than a little interest shown because of its local attraction, but many choose it because "somebody told me that it is a fine story."

"We live in communities and not in houses," she said in outlining the important features to be considered before buying property, "and we should look first to the town or city."

"Climate is important," she said and upon returning to her home after a month in the California sun, she wondered why anybody ever buys a home in Boston. In choosing a location, she advised, look to the geography of the surrounding countryside. Does it have an idyllic beauty that will enhance the beauty accomplished by your own efforts? Does the town have the value of continuous tradition? Is the neighborhood on the up-grade or is it blighted? Is it protected by

"The Dark Wood," a novel by Christine Weston, is another that has a good number of reservers. This is a story of a woman who refused to believe that her husband had lost his life in Italy, and to escape the finality of that knowledge resorted to many psychological escapes.

One novel that was doing very well before Book Week publicity was "The Foxes of Harrow," a story of a gambler who took from life anything that he needed to satisfy his obsession for power. The New Orleans setting with the romance of the period and the quick-moving paces of the writing all combined to make this one of the "much-wanted."

Book sellers everywhere expected that "Green Grass of Wyoming," the newest book of the McLaughlin family, famous for Kenny and Flicka, would be an overwhelming success, and our reservers prove it to be true here as elsewhere.

Anyone who has ever had any contact with the amazing people who walk through the pages of "Suds In Your Eye," and "High Time," feels impelled to stand in line for the latest book by Mary Rasmussens "Book Of One-Arm Cookery." The delightful concoctions tossed off so casually by that lady have been written up in true recipe form, with a typical observation attached to each.

On The Library Shelves

There was no need to stimulate interest in the new De la Roche book. This is the tenth in the Jalna series to add to her list.

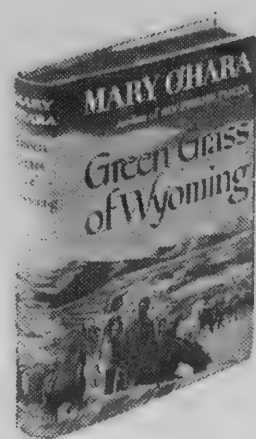

The story of the Broadway press agent who "topped" a miracle, is among the first choices from the fiction titles. "The Miracle of the Bells," by Russell Janney, is surely headed for popularity.

Without even thinking, we can predict the selected non-fiction titles. "Happy the Land," by Louise Rich, author of "We Took To The Woods," will hold as long a reserve list as "Driftwood Valley," the delightful record of two people who made their home in the far regions of British Columbia to study the wild life there and preserve specimens for a Canadian museum.

"As He Saw It" and "The Roosevelt I Knew," are both drawing a number of would-be readers. Here are two pictures of the late President Roosevelt, one by his son and the other by Frances Perkins, who served as his Secretary of Labor.

We all want to know why we think as we do, it seems. Several have joined the waiting list for "Doctors Of The Mind," a study of the scope and growth of psychiatry.

Elinor Graham is still popular with her "Maine Charm String," a book which pleases the button collectors and those who love anything about the Pine Tree State.

One woman's answer to the color question is Margaret Halsey's "Color Blind." Our patrons have always shown great interest in books that work towards the removal of strain and prejudice, and continue to do so by adding up a list for this book.

And being very fond of Grandfather, who had his own following in the "Bounty Of The Wayside," we are delighted to see that his new book, "Grandfather Objects," is piling up a sizeable number of reservers, and promises a pleasant evening to a dozen or so fortunate people.

Last, but by no means least, is the new Leland Stowe book, which "should" be there with the others on display, but is busy with previous reservers. "While Time Remains," as its title implies, is a "must" book for anyone who reads and for everyone who thinks!

WE LIVE IN COMMUNITIES — NOT IN HOUSES

In her talk on small houses at a gathering of over a hundred people at the Memorial Hall library's open house on Sunday, Mrs. Johnson O'Connor spoke not so much of the structure and room planning of the building as on the contributing factors that make a house a town.

"We live in communities and not in houses," she said in outlining the important features to be considered before buying property, "and we should look first to the town or city."

"Climate is important," she said and upon returning to her home after a month in the California sun, she wondered why anybody ever buys a home in Boston. In choosing a location, she advised, look to the geography of the surrounding countryside. Does it have an idyllic beauty that will enhance the beauty accomplished by your own efforts? Does the town have the value of continuous tradition? Is the neighborhood on the up-grade or is it blighted? Is it protected by

adequate zoning laws? The intangible assets such as civic pride and the tangible assets such as the amount of taxes, the progressiveness of the school system, the library, the system of garbage and wastepaper collection if there is a system, and the people in the neighborhood — are they friendly and pleasant to newcomers — all these things have a major importance in the desirability of living in a particular community.

Even more practical is its convenience to a shopping section and to recreational activities. Mrs. O'Connor advised strongly against driving to a location in an automobile. "Park your car in the town," she suggested, "and walk to the property under consideration. Distances have a way of shrinking when you're being transported on wheels and of stretching out when you are walking and carrying bundles."

Remember also, she said, that the land is part of the living area. Boulders have to be blasted to make a cellar and in this area it is the custom to dig down at least four feet. The drainage, too, should be inspected as it is disadvantageous to find a swimming pool in the cellar.

Land means maintenance. It is not enough to say, "Now I'll have a garden here and some shrubs there" for shrubs have a way of growing and gardens have a way of turing to weeds.

In discussing the building situation at the present time, Mrs. O'Connor stated that the house under \$10,000 is practically non-existent and that the average buyer pays 2/3 more than during normal times and in some cases the prices have increased 100%.

Mrs. Johnson listed the costs associated with home ownership as 1) interest on money borrowed, and if money is not borrowed then the interest lost in placing the principle in property, 2) amount paid to amortize the mortgage, 3) physical depreciation which is usually estimated as 2% of the cost for the first twenty years, 4) physical depreciation in the neighborhood, and 5) insurance. It is therefore advisable to consider what sacrifices are entailed and how important are the sacrifices. The assets and objections connected with the individual case should be carefully weighed.

Home ownership is not usually wise for low salaried people who ought to be "foot loose" until their financial future is rosy enough, and,

Mrs. O'Connor pointed out, "some people never know where they're going economically." In looking for better opportunities, it is better to keep one foot free — to jump in which ever direction the opportunities lie. However, in families whose future seems assured and whose children need the companionship and neighborhood activity, home ownership is almost a necessity. A house should be built to fit the budget as well as the personality of the owners.

Mrs. O'Connor illustrated her talk with experiences she has had in planning homes. She was introduced to the library audience by Windsor Gale. In the question and answer period that followed, Mrs. O'Connor predicted that prefabrication is the coming thing and that eventually houses would be purchased in units to be put together but at the present time, she said, builders are afraid of it.

Models of small homes were on display throughout the library during open house besides many printed pamphlets for distribution.

A Typical Thanksgiving

"Over the river and through the woods
To Grandmother's house we go;
The horse knows the way to carry the sleigh
Through white and drifted snow.
Over the river and through the woods,
Oh, how the wind does blow!
Hurrah for the fun! Is the pudding done?
Hurrah for the pumpkin pie."

Thanksgiving morning should dawn cloudy and cold, the kind of day when you can almost see the wild turkey walking in and out among the stumps of the trees which were cut to build the first settlers' homes. The smoke curls from many chimneys all over Massachusetts; big smoke-hardened chimneys of the farmhouses; new red-brick chimneys on the little cape-cods; and from the conservative chimneys of apartment houses and hotels — chimneys we seldom see, chimneys which sometimes aren't there. The chimney, which used to be an integral part of the home—no meal could be cooked without it—now is not so necessary in the days of electricity.

But let us assume that there is a chimney, and that smoke is curling from it on this Thanksgiving day in 1946. And let's imagine, although pantrys, too, are few and far between, that on the pantry shelves is a gleaming white turkey, prepared the night before, complete with stuffing, all ready to pop into the oven. And beside it, in orderly rows, stand squash, mince and apple pies, fruit cake, plum pudding and rum sauce. In the vegetable bin, ready for peeling, lie the big Blue Hubbard squash, the pearly onions, the dusty potatoes.

The cranberry sauce made from cranberries picked in the meadow before the first frost, stands in a blue bowl, ready to be tipped out into a ruby mound of quivering tartness.

Long after the white morning-frost has disappeared from the bare branches of the trees, and the still-green grass, sounds begin to emanate from the dwelling-place; the crackling of nuts, the rattle of dishes, the daughter of cousins and aunts and grandchildren brought together for the holiday. The smells from the kitchen grow stronger and more tantalizing, the big table in the dining room is set to capacity, and water glasses are filled. The turkey, now golden-brown, is taken from the oven and placed out of temptation's way. Crisp, cold celery is brought from the refrigerator, and coffee bubbles from the back of the stove.

In the early afternoon the feast is at last ready, and the family, all gathered together once more, take their places in front of the place-cards painstakingly fashioned by the children. And as they sit, those who helped make it all possible are hot and tired, perhaps, but as they look around that circle of familiar faces—what could be more worthwhile than a real American Thanksgiving—a time that makes us realize how thankful we are that "a band of Pilgrims moored their bark on a wild New England shore."

Choral G Date For

A choral group from Andover Male Society Chorus, other choral groups from Lawrence, Methuen, under the direction of Everett Collins, will sing "Messiah" Sunday evening. There are now 150 members, many of them specially trained singers, rehearsing and performing already made, and will be invited.

Miss Ruth E. St. and John F. St. are the guest artists. Second Congregational Church, West Newton, will sing "Messiah" Sunday evening. She has been a member of the Greater Boston Chorus.

Mr. Kerr is a native of Ireland, and was a cathedral chorist. He has been a member of the cathedral choir of the cathedral of St. John the Evangelist, Boston, and is now being made a member of the cathedral choir of St. John the Evangelist, Boston.

Raymond Wilbur, pianist and organist, will play for the concert.

A special invitation is extended to the many listers of the Tercentenary to Cochran chapel to hear this rendition of the promises to approach previous choruses.

NEW AMBU ARRIVES HERE

A brand-new ambulance was delivered to the Andover Fire Station. The price quoted was \$5,000, but a donation was secured for the new apparatus.

The new ambulance is a 1926 Studebaker, and will be of constant duty for which now can be trusted.

DON'T LEAV LEAVES BUR

Everybody sees leaves. This makes it when the wind is blowing. This is the reason for the leaves and there are many bad fires. Leaves and use them for a compost. A little manure can make good garden, and you can have a fire.

Choral Group Sets Date For "Messiah"

A choral group made up of the Andover Male Choir, the Tercenary Chorus and members of other choral groups from Andover, Lawrence, Methuen, and North Andover, under the direction of J. Everett Collins, will present Handel's "Messiah" at Cochran chapel Sunday evening, December 15. There are now over 75, many of them specially trained oratorical singers, rehearsing for the program and, because of the progress already made, no additional singers will be invited to participate.

Miss Ruth E. Perkins, alto soloist, and John Kerr, baritone, will be guest artists. Both are from the Second Congregational church in West Newton. Miss Perkins is a graduate of the New England Conservatory of Music and is a special student of the famed Rose Stevens. She has been a coveted soloist in Greater Boston for several years.

Mr. Kerr is a native of Dublin, Ireland, and was a singer at the cathedral there. He was formerly assistant choir director at the Episcopal cathedral in St. Louis. Considerations for a soprano soloist are being made by the committee and it is possible that one will be obtained to sing in the oratorio.

Raymond Wilkinson, Male Choir pianist and organist at the Cavalry Baptist church in Lawrence, will play for the concert.

A special invitation is extended to the many listeners who enjoyed the Tercenary concert to return to Cochran chapel on December 15 to hear this semi-professional rendition of the "Messiah," which promises to approach and even surpass previous concerts by the mixed chorus.

NEW AMBULANCE ARRIVES HERE

A brand-new green Cadillac ambulance was delivered to the Central Fire Station this week, in connection with an appropriation made at town meeting last March. The price quoted at the time it was ordered from the Troy Motor Company last April was \$4,000. Since then the price has been raised to \$5,000, but an extra appropriation was secured to finance the new apparatus.

The new ambulance replaces the 1926 Studebaker which has seen constant duty for many years, and which now can take a much-needed rest.

DON'T LEAVE LEAVES BURNING

Everybody seems to like to burn leaves. This may be fun and not unsafe when there is no wind, though it is wasteful. But if the wind is blowing, it is anything but safe. This is the fall forest fire season and there have already been some bad fires. Better gather the leaves and use them for bedding on the farm; or if you have only a garden, pile the leaves in one corner for a compost heap, mixing in a little manure or even garbage to rot them. Then next spring they will make good fertilizer for the garden, and you won't be taking a chance on a fire now.

The Andover Council of Churches

Next week the Churches of Andover are uniting in conducting their Every Member Canvass to secure funds for their work during the ensuing year.

You have a Church whether you support it or not. It ministers through all its members and services to the needs of your community. It makes the difference between your civilization and that of nations which have no Church. It is the light before us on a road that would be dark without it. It is vital to your life and happiness.

Support Your Church!

Obituaries...

JOHN H. MANDER

A native of Andover, John Haynes Mander, 68, 481 Shawmut avenue, Boston, died Saturday afternoon at the Boston City hospital following a short illness. Mr. Mander who was employed by the Boston Water Department, had lived in this town for 48 years before moving to Boston.

He is survived by a daughter, Mrs. John J. Barry of Roslindale; four sisters, Mrs. William Scott of Los Angeles, California, and Mrs. Llewellyn E. Pomeroy, Mrs. Mary B. Manning and Mrs. Marion L. Wilkinson, all of Andover; also several nieces and nephews.

The funeral was held from the Lundgren funeral home Tuesday afternoon with services at 2 o'clock conducted by Rev. J. Levering Reynolds, Jr., pastor of the Free church.

Burial was in Spring Grove cemetery.

MRS. CHARLES H. MILLEY

Mrs. Eliza Jane Milley, wife of Charles H. Milley, formerly of Watertown, died Sunday at the home of her sister, Mrs. George W. Barrett, 24 Dufton road.

Besides her husband and her sister, she is survived by three daughters, Mrs. Lorraine Dodge and Miss Virginia Milley of Braintree and Mrs. Burton Berry of Quincy.

The funeral was held from the Gregg funeral chapel in Watertown on Wednesday afternoon, with services at 2 o'clock in St. John's Methodist church, Watertown.

MRS. EDITH M. NEWMAN

Mrs. Edith Maud (Randall) Newman, 76, 121 Elm street, died at her home Sunday evening after a long illness. She was the widow of Charles H. Newman.

She was born in Roxbury, and had made her home here for the past 66 years. A graduate of Punchard High school and Salem Teachers college, she taught in Andover, North Andover, Middleton, North Adams and several New Hampshire communities. She was a member of the South church, the Women's Union, a charter member of The King's Daughters, and was also affiliated with the Andover Grange and the National Grange.

She was also a member of the Home Department of the South church.

She is survived by two daughters, Mrs. Ruth Kneeland and Miss Harriett M. Newman, both of this town; two sons, Winthrop R. Newman of Andover and H. Irving Newman of Haverhill; a sister, Mrs. Willard Slade of Hubbardston; and six grandchildren.

The funeral was held from the Lundgren funeral home Wednesday afternoon with services at 2 o'clock conducted by Rev. Frederick B. Noss, pastor of the South church. Burial was in the Old South cemetery.

ARCHIE KRIKORIAN

Archie Krikorian, 73, 5 Argilla road, died at his home last Thursday evening following a long illness. Born in Harpoot, Armenia, he had made his home here for the past 45 years.

There are no immediate survivors.

The funeral was held from the L. J. Farrah funeral chapel, Lawrence, Saturday afternoon, with services at 2:00 p. m. in Holy Cross Armenian Apostolic church by Rev. Hovanes Kavookjian, pastor. Burial was in Bellevue cemetery, Lawrence.

MRS. AGNES M. GALLANT

Mrs. Agnes (Murphy) Gallant, South Main street, widow of Angus Gallant, died Sunday afternoon at the Grafton hospital, Grafton, following a long illness. A native of Ireland, she had made her home here for the past 35 years.

Surviving are five sons, James Gallant of Philadelphia, Pennsylvania; Jerome M., Leonard, John, and Leon A. Gallant, all of Andover; two daughters, Mary S. and Ruth A. Gallant, also of this town; two sisters, Mrs. Robert Metcalf of Methuen, and Miss Mary Murphy of Boston; and five grandchildren.

The funeral was held Thursday morning from the home of her sister, Mrs. Robert Metcalf, 5 Quincy street, Methuen, with a high mass of requiem at 9:30 o'clock in St. Augustine's church. Burial was in St. Augustine's cemetery.

Poultry Breeders' School November 20-21 at M. S. C.

Prominent out-of-state authorities, plus resident staff members, will serve as instructors and speakers at the 19th annual Poultry Breeders' School, November 20-21 on the M. S. C. campus, Dr. F. A. Hays, director of the two-day session and research professor, has announced.

Enrollees from all Northeastern states and possibly Canada are expected to swell the attendance this year to the 200 mark.

Prominent out-of-state speakers are Dr. R. K. Cole, assistant professor of animal genetics, and Dr. F. B. Hutt, professor of animal genetics, both of Cornell University; Dr. Paul D. Sturkie, New Jersey Experiment Station, New Brunswick, N. J.; and Dr. A. B. Godfrey, Bureau of Animal Industry, Washington, D. C. Well-known Massachusetts poultrymen also will appear as instructors and speakers and include E. B. Parmenter, Franklin; H. A. Richards, South Easton; and Donald Crooks, North Brookfield.

Attention to Buying Will Help Hold Down Food Costs

The housewife who is willing to spend a little more time in the selection and purchasing of food for her family can still provide a balanced and nutritional menu from day to day without buying so-called luxury items, say nutritionists at Massachusetts State College.

How the average low or moderate income family spends its food dollar of course is up to the housewife or persons doing the shopping but here is a suggested list of items reflecting savings without loss of nutritional value:

Scrambled eggs can be served two or three times a week using storage eggs instead of boiled or fried fresh eggs. Use family milk plus evaporated milk to make nutritious drinks. Fresh spinach and other greens provide as much nutritive value at a lower cost than frozen greens — and this goes for practically any frozen vegetable. Cabbage — the least expensive of the winter salad vegetables — can be eaten raw, boiled, or as a salad with a little homemade dressing. In good supply cabbage can be served in place of more expensive broccoli and cauliflower. On the saving side of the ledger are the stew meats, pot roasts, hamburger, and frozen fish, which can be served instead of expensive steaks and chops and fish in season. When available, as is the case with most items listed, oleomargarine amply takes the place of butter. Likewise, the housewife who cooks her beans and other foods at home is effecting a saving. Home baked goods are cheaper than commercially baked goods. American mild cheese will take the place of fancy cheeses and oatmeal and other uncooked cereals can be used in place of prepared cereals.

BOY SCOUT NOTES

Troop 73—South Church

The troop met Friday evening, November 15, under the direction of Scoutmaster Robert Hatton. It was announced that the next outdoor event will be a mountain climb on either December 14 or 15 in any weather except rain. Visitors at the meeting were Troop Committee Chairman Rev. Frederick Noss, Field Scout Executive Nestor Eno, District Commissioner Walter C. Caswell, and District Vice-Chairman Calvin E. Metcalf. Troop 73 has been continuously registered for twenty years and provides an active program for Scouts. Scoutmaster Hatton also announced a schedule for advancement in rank.

Troop 73 has formed two patrols, the Flying Eagle, with John Belka as patrol leader and Alan Douglass as assistant, and the Scorpions, led by Winthrop Adkins and Ronald Christie. The two patrols met in competition and are evenly matched.

First and Second Class and first aid were directed by Mr. Shaw and Mr. Metcalf. Mr. Hatton taught signaling. Dues were collected by the scribe, Alan Douglass.

Commissioners Meet

Council Commissioner John W. Ramsden of the North Essex Council presided at a meeting of district and neighborhood commissioners from the Lawrence, Methuen, North Andover and Andover districts on Tuesday evening, November 12, at Scout headquarters. District Commissioner Walter C. Caswell, who is associated with the New England Telephone and Telegraph Company, made a preliminary report on the progress of telephone service for Camp Onway. Troop registrations and advancement awards were discussed by Field Scout Executive Nestor Eno.

Troop 70—Christ Church

A meeting held Friday evening, November 15, was programmed for advancement on Tenderfoot requirements under the leadership of Scoutmaster Harrison E. Brown. The troop expects to register in about two weeks. Two patrols with patrol leaders are already organized. Visitors at the meeting were Troop Committeeman Rev. John S. Moses, Field Scout Executive Nestor Eno, and District Commissioner Walter C. Caswell.

Pack 71—Shawsheen School

This pack, which registered 16 boys, who were Cubs last year, has nearly doubled in size, with 27 registered Cubs. At the next meeting, November 26, several new Cubs will be awarded their bobcat pins and further swell the ranks.

Troop 71—Shawsheen School

The program for Monday evening, November 18, included opening exercises, signaling instruction, marching and drill, advancement period, and dodge ball game. Joseph Spinella was presented his Tenderfoot pin. Charles Schulze and Raymond Shea applied for membership. Scoutmaster Everett MacAskill announced the following Second Class advancement tests as passed: Oath and law — Arthur Botsch, Louis Fiedler, Scott Gerish, and Julian Hill; cooking — Arthur Botsch and Julian Hill; safety — Louis Fiedler; knife and hatchet — Louis Hamilton; firebuilding, compass, tracking and thrift — Julian Hill.

LAUGHING STOCK By Frank Adams

"A most persistent book salesman was here this afternoon!"

JOIN THE NAVY AND BE A MUSICIAN

The Navy Department has announced that applications are now being accepted from men possessing musical skill for enlistment in the regular Navy as musicians. Those men who qualify in all respects will be sent to the Navy's school of music at Washington, D. C., for a course of instruction of approximately six months duration. Upon completion of this course of instruction a student is graduated from the school and transferred as a member of a twenty-piece organization to a naval activity, afloat or ashore.

In addition to the above there exists an unlimited quota at the present time for those desiring to enlist in the regular Navy for Electronic Technician's Mate training. Limited quotas are also open for those desiring to enlist for Combat Alrcrewman or Hospital Corps training. Detailed information concerning enlistment in the above branches or in any other branch of the regular Navy may be obtained at the nearest Navy Recruiting Station, Post Office Bldg., Room 210, Salem, Mass.

Firemen Bugged Down Fighting Brush Fire

A stubborn brush fire which evidently originated in Beaulieu's meadow, caused firemen considerable trouble Saturday afternoon, as it had a good start before firemen were able to reach it. The blaze had covered several acres before the arrival of fire-fighters, who found it difficult to get to the blaze due to the swamp land on the east side.

Engine 1 and the brush fire pump from the Central fire station and Chief Edward Buchan went first to Beaulieu's meadow, where the men, wearing high rubber boots and carrying chemicals and shovels, waded through the marsh to the fire, which was extinguished in this area after an hour's hard work.

Engine 2 of Ballardvale and the state fire truck came in from Central street below the Foster estate. The firemen and volunteers fought the blaze until 4:45 p. m., when it was fully extinguished.

The origin of the fire, which covered several acres and damaged many young trees, is not known.

LIKE CONTINENTAL CONGRESS
WASHINGTON. — The American people are now beginning to realize that the road to peace after war is never easy. Beating our swords back into plowshares sometimes is more difficult than forging the swords of battle.

But one encouraging milestone on the road to peace now is under way in New York where the smaller nations of the allied world, who for months have had to sit and take it from the Big Four, now debate on an almost equal footing.

Many have forgotten it, but this issue of free debate caused a bitter battle at the San Francisco conference. Molotov then wanted to stifle free debate. He proposed that the general assembly of the United Nations not even be permitted to discuss or to criticize decisions of the big powers sitting on the security council.

Australian Foreign Minister Evatt, spokesman for the little powers, opposed. He went further and demanded that the general assembly under the recognized principles of democracy have the power to overrule the security council. He was rebuffed, not only by his own "mother diplomats" from London, but also by the isolationist-grounded senators of the U. S. delegation.

SAVE USED FATS

In the end, the general assembly was given the power to debate, discuss, criticize, and recommend—but not to carry out. That is what it is doing at the present sessions.

Behind the iron curtain, public opinion still is tightly controlled. When it is decontrolled, then we need no longer worry about war between the USA and the USSR. Meanwhile, the sessions in New York are like the first struggling but healthy debates of the Continental congress and of the United States congress which grew therefrom. They won't achieve much at the moment, but they should pave the way to great and hopeful things.

HARRY TRUMAN'S PRESS

If Harry Truman could place an ad in the papers, probably it would read something like this:

"Wanted—Good press secretary; willing to work long hours; must be practicing newspaper man, not afraid to say 'no.' Low salary, but private car and plenty of prestige. Call National 1414 or write H. S. T., 1800 Pennsylvania avenue, Washington, D. C."

There are few weaker spots in the White House staff than Truman's press aides. Venerable Charlie Ross, the President's secretary, simply isn't filling the bill. Personally one of the finest gentlemen in Washington, Ross is by nature an introvert; doesn't get around much, is a poor spot-news reporter and a complete failure as a press agent.

News men who cover the White House sometimes are genuinely alarmed at Ross' ineptitude. They claim he doesn't read the newspapers regularly, doesn't even keep up with the White House directives. Frequently, White House newsmen have asked about stories which were on the front page of the morning paper, but Ross shows he simply has not read the papers.
